

Hello,

As a listener of XM Satellite radio for over two years, I was a little shocked to hear of NAB's petition 04-160. XM has provided me with such a variety of choices of music and other forms of entertainment as well as news. We have 3 XM radios, one in our living room, and my husband has one on his computer, and one in my car, which we pay \$71.91 every quarter. I for one do not want to be restricted in what I hear if I am paying for it. I love my XM radio! I respectfully ask you to reject this petition.

Thank you  
Vicki
